

The 8290 Series consists of 2-way direct acting valves available in normally closed or normally open constructions. Built for demanding applications, these valves come in a straight-through body design made of bronze or stainless steel. There are many optional features including visual/ electrical position indicator or a stroke limiter. The 8290 Series is suitable for the following applications:

- General Service (air, inert gas, water, oil, light slurries)
- Steam and Hot Water

Construction

① For all optional AISI 316L Stainless Steel constructions, contact ASCO

Specifications

Ambient Temperature Range: 15°F to 140°F
 (32°F to 122°F for proportional valves and water service)

Pilot Fluid Temperature Range: 15°F to 140°F
 (32°F to 122°F for proportional valves and water service)

Maximum Viscosity: 2,700 SSU
 For higher viscosity applications, please consult ASCO.

Alternate Valve Constructions

- Oxygen service, add suffix "N"
- Medium vacuum service up to 7×10^{-3} Torr, add suffix "VM"
- Visual Position Indicator for normally closed valve with 32mm or 50mm operator, add suffix "VI" (note: position indicator standard on 63mm through 125mm operators).
- NET-INOX treatment (stainless steel valve body pickled in nitric/hydrofluoric acid bath), add suffix "NI"
- All 316L Stainless Steel versions (available on request).

See page 214 for the following constructions:

- Compact Positioner for proportional control
- Compact Signaling Unit
- Signaling Box
- Linear Position Indicator
- Stroke Limiter

Visit www.ascovalve.com/8290Configurator to create an 8290 assembly that fits your needs. Options include position indication, pilot valves, and other accessories.
 8290R3

SPECIAL SERVICE VALVES

Compact Positioners for Proportional control

Varies flow proportional to a 0-10 VDC, 0-20 mA or 4-20 mA control signal. Feedback of valve stem position via a linear potentiometer. Uses a profiled disc for flow characterization. Assembly available on 50mm through 125mm operators, normally closed with fluid entry under disc. Positioner not suitable for water piloting. (e.g., 8290A384PDB04)

Control Signal	Add Suffix
0-10 VDC	PDB04
0-20 mA	PDB05
4-20 mA	PDB06

Signaling Box

Supplied with two mechanical or inductive switches with LEDs, and mounts on top of the valve operator in place of the standard visual indicator. As the valve cycles, cams on the signaling box lengthening stem operate the switches to provide electrical signaling of the valve position. The signaling box can rotate 360°.

Switches	Add Suffix
Two Mechanical	SM2
Two Inductive	SI2
Two Intrinsically Safe	SH2

Assembly available on 50mm normally closed and 63mm through 125mm normally open and normally closed. (e.g., 8290A384SM2)

Linear Position Indicator (HS Series)

Supplied with two mechanical or REED switches and mounts on top of the valve operator in place of the standard visual indicator. Provides a wiring box with conduit connections. HS1,2,3 indicators are suitable for hazardous locations while the HS4 indicator is suitable for non-hazardous locations. Optional AS-interface® and DeviceNet® communications available. Consult ASCO for details and ordering.

AS-interface is a registered trademark of ATO. DeviceNet is a registered trademark of ODVA.

Stroke limiter

The stroke limiter allows Cv flow to be adjusted from 0% to 100%, and mounts on top of the 8290 Series valve in place of the position indicator. Assembly available onto 50mm (normally closed) and 63mm through 125mm normally closed valves with fluid entry under the disc. Add suffix M: (e.g., 8290B002M)

SPECIAL SERVICE VALVES

Pilot Valves

ASCO offers a variety of 3-way direct acting normally closed pilot valves to pilot 32mm through 125mm 8290 valves. Available in direct, in-line, and remote mounting. To order, specify catalog number and voltage (24, 120, 240 AC/60Hz or 110, 220 AC/50Hz or 6, 12, 24, 120/DC).

Series 189

- Direct Mount
- Swivel "Banjo" fittings, 1/8" NPT male
- Inlet for 4mm plastic tube
- DIN plug connection

Series 8320

- In-line mount
- 1/8" or 1/4" NPT
- Brass or stainless steel
- (Explosion Proof optional, add prefix EF)

Numatics® G2-2

- Remote mount
- 4 to 16 valves
- Compatible with AS-interface, DeviceNet, Profibus® DP, FOUNDATION Fieldbus™, and others
- Air service only

Profibus is a registered trademark of Profibus International.
FOUNDATION Fieldbus is a trademark of Fieldbus Foundation.
