

Electronically Enhanced Solenoid Valves (Next Generation)

RedHat Next Generation is the future of solenoid valve technology, designed and manufactured to provide new capabilities. The Next Generation of solenoid valves provides lower operating cost, and represents an advancement in the performance, reliability, and ruggedness that you have come to expect from ASCO.

RedHat Next Generation valves use electronics technology to manage power, providing a new standard of operation. The solenoid incorporates a power management circuit providing lower power consumption, enhanced pressure and flow ratings, and electrical surge suppression to both the solenoid and electronic controls.

The new solenoid draws only 2 watts of power. A conventional solenoid with the same performance can draw as high as 17 watts of power. The savings in power usage over the installed life of the valve will lower the total cost of ownership up to 14%.

The new technology accepts both AC and DC voltages without sacrificing flow or pressure specifications. DC performance has been increased by 150% to 500% from today's

industry standards, making the valves' DC characteristics equivalent to AC pressure and flow values. This simplifies your control by eliminating the need for AC output cards, reduces wiring costs, and provides safer working environments for users operating on DC.

RedHat Next Generation coils are offered in three voltage ranges covering most electrical requirements – 100-240/AC or DC, 24-99/AC or DC, or 12-24/DC. Each coil has built-in electrical surge suppression that protects the coil from external voltage spikes and eliminates inductive voltage spikes associated with conventional solenoids. An optional solenoid is available for use in Class I, Division 2 hazardous locations.

ASCO RedHat Next Generation addresses many other operating characteristics that will further improve the life of your solenoid valves. These include a much lower temperature rise, and an increase in valve ambient temperature rating to 140°F/60°C. Because of our confidence in the rugged design of the RedHat Next Generation solenoids, ASCO is pleased to extend a 3-year warranty on the coils.

ELECTRONICALLY ENHANCED

Index

General Description	Pipe Size (NPT)	Page
2-Way Normally Closed	1/4" - 2"	100-104
2-Way Normally Open	1/4" - 3/4"	100-104
3-Way Normally Closed	1/4" - 3/4"	105-109
3-Way Normally Open	1/4"	105-109
3-Way Universal	1/4"	105-109
4-Way	1/4" - 1"	110-112

ASCO TODAY

Because Time Matters...

ASCO Today delivers the great products you need, when you need them.

You save time and money. Just place your order by 3:00 P.M. EST and ASCO ships today.

- Guaranteed same day shipment or ASCO pays the freight
- ASCO Today includes our most popular valves, valve rebuild kits, and accessories
- Over 2000 of ASCO's most popular products qualify for ASCO Today's guarantee
- Solenoid Valves • Miniature Valves • Valve Monitoring Systems • Pressure Switches

5 DAY

As part of our continued drive for customer service, we expanded the ASCO Today program with over 40,000 products that can be shipped within five business days.

Products may vary in Canada, please call 1-519-758-2700 to check availability of specific catalog numbers.

Because Performance Matters ASCO is Committed to Technology, Leadership, and Service.

For more information on how you can have the ASCO products you want when you want them, visit us online to see our complete listing of ASCO Today products or call 1-800-972-2726.
